# Honoring the Life and Legacy of Oscar and Anne Mauzy

*"Children who live in poor districts and children who live in rich districts must be afforded a substantially equal opportunity to have access to educational funds. Certainly, this much is required if the State is to educate its populous efficiently and provide for a general diffusion of knowledge statewide."*

Oscar Mauzy, 1996, author, unanimous Fifth Circuit Court opinion, *Edgewood v. Kirby*

"...people ought to have beliefs and they ought to be willing to stand up for them, and they ought to be willing to fight for them. You understand you're going to win some and you're going to lose some, but you still stay pure and you fight for what you believe in."
